

WRAP Regional Haze Workplan Completion and Results Meeting series

June 23 and 25, 2020 Meeting #2

This series of 3 virtual remote access meetings with 2 sessions each are to present tools and data prepared through the WRAP Workplan effort. This second meeting (#1 held on May 19-20 and #3 scheduled for July 22-23) will run from 100 to about 400 PM MDT. They will be recorded.

Meeting Agenda

All agenda times are Mountain Daylight Time

Day 1: June 23rd from 100 to 400 pm MDT

web meeting access: <https://cc.callinfo.com/r/1smh4lt7fzcn1&eom>

phone access: 800.768.2983, access code 6619876342 (Computer audio is available, phone audio is recommended unless you have a strong and reliable wireless connection.)

- Welcome, Format and Agenda Review (10 mins.) – Tom and Pat
- TSS Orientation (<https://views.cira.colostate.edu/tssv2/>) (10 mins.) – Tom
- Recap / progress on Monitoring and Emissions Data display tools for Regional Haze plans (40 mins.) - Tom
 - [Ambient Data Express Tools](#)
 - [Emissions Express Tools](#)
- Modeling and Visibility Projections results access and display topics for weight of evidence (40 mins.) – Pat
 - [Modeling and Projections Express Tools](#)
- Questions and discussions (30 mins.) – all
- WRAP-up and prepare for June 25th session – Tom and all

Day 2: June 25th from 100 to 400 pm MDT

web meeting access: <https://cc.callinfo.com/r/110dmmcreze1c&eom>

phone access: 800.768.2983, access code 6619876342 (Computer audio is available, phone audio is recommended unless you have a strong and reliable wireless connection.)

- Welcome, Format and Agenda Review (10 mins.) – Tom and Pat
- Modeling Results and Applications presentations – methodology and “how-to-use” (12-15 mins. each)
 - 2028 Visibility Projections and Potential Additional Controls (PAC1) – Ralph Morris / Tom
 - Review of RepBase high-level source apportionment method and applying results toward URP adjustment – Mike Barna
 - Methodology for state by source sector apportionment using PSAT and APCA – Kevin Briggs
 - Dynamic Modeling methods – Gail Tonnesen
 - Final WEP/AOI methods and applying results – Ross Beardsley / Tom
- Questions and discussions (30 mins.) – all
- Next steps on modeling results delivery and continuing updates to TSS (10 mins.) – Tom and Pat
- WRAP-up and prepare for July 23 and 30 sessions – Tom and all

+++++

May 19 Monitoring results session ([recording](#))

May 20 Emissions results session ([recording](#))

July 23 and 30 Regional Haze results #3 – same 3ish hours format, Tribal Data WG products, covering additional modeling and other Workplan results, possibly using case studies by states for control analysis evaluation, as well as “checking off” the regional work product deliverables for states to use/reference in Regional Haze SIPs.

This would be the end of regional analysis except for PAC2 and any remaining modeling results in September and any subsequent modeling to be completed in 2021.
