

Idaho DEQ, Air Quality Program Western Air Quality Workshop

Wednesday, March 18, 2015

Time: 1:00 PM – 4:30 PM

Meeting Room: Idaho DEQ Conference Rooms C / D

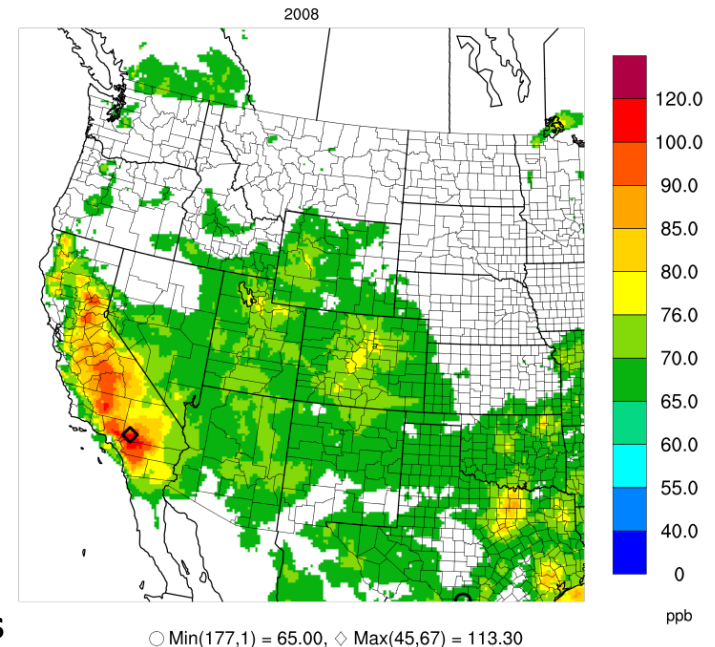

Join us to learn more about:

- In-state and out-of-state air emissions' impacts on air quality in Idaho
- Idaho's air emissions effects on other states
- Ozone and other air pollution across the West
- Modeling, wildfire smoke plumes and exceptional events
- Online air quality modeling tools

Tom Moore, Air Quality Program Manager for the Western Regional Air Partnership, will present a workshop hosted by Idaho DEQ covering results from collaborative WRAP air quality studies in the West, to provide information for western air quality planning in the future. Learn about these studies, what the results show, how the data can be used, and how these studies can help air agencies in the West assess air quality.

E-mail rick.hardy@deq.idaho.gov to reserve a seat.

Or register via URL provided in agenda to join webinar.

36km: 148 x 112 (-2736, -2088) to (2592, 1944)
12km*: 227 x 230 (-2388, -1236) to (336, 1542)
04km*: 317 x 515 (-1480, -904) to (-212, 1156)

* includes buffer cells
