5. Oil & Gas Work Group Scope

- a. Identify WRAP member agencies dealing with oil and gas sources
 - i. Group member discussion of agencies missing from the following list of agencies of OGWG Members & Advisors

Local Agencies: Bay Area AQMD, Denver RAQC, City of Fort Collins

State Agencies: Alaska DEQ-DAQ, California ARB, Colorado DPHE-APCD, Montana DEQ-AQB, North Dakota DH-DAQ, New Mexico ED-AQB, Utah DEQ-DAQ, Wyoming DEQ-AQD

Tribal Agencies: Ute Indian Tribe; Navajo Nation; Mandan, Hidatsa & Arikara Tribe; Jicarilla Apache Nation; Southern Ute Nation

Federal Agencies: Bureau of Land Management, Environmental Protection Agency, Forest Service, National Park Service

- b. Identify Oil and Gas Sources for the entire upstream and midstream sectors

Discussed the range of definitions for “upstream” and “midstream” oil and gas sources. Discussed defining our scope in relation to WRAP’s other work groups’ goals (primarily supporting regional haze SIP development). Primary objective is to provide resources and fill data/information gaps for agencies that have identified O&G as a source that impacts their air quality planning. Recognized that this group cannot effectively take on the entire O&G spectrum. May develop scope (cut off points) for oil (development, production, storage, and transport) separate from natural gas.

6. Next Steps & Planning for May Call

Action Items:

1. ***Volunteer to give 5 minute briefing to other WRAP workgroups on OGWG workplan/activities and gather information on their needs from us. Melissa will coordinate with other work groups monthly calls.***

- 2. One volunteer during each monthly call to give 10 minute briefing on their agencies activities with regards to oil and gas activities, emissions, tools, studies and planning for regional haze.**
- 3. Continue discussion on defining scope for this group's activities as it relates to the WRAP's goals. Will invite authors of "Analysis of the National Oil and Gas Emission Inventory" (John Grant/Ramboll Environ) to future call to discuss results.**
